Interoffice - Memorandum

To: Judith C. Boyko, Township Administrator

From: Kenneth Keim, Finance and Information Technology Director

Date: August 9, 2013

RE: **REQUISITION ITEM: DELL INC., $8,693.98, PURCHASE REPLACEMENT VIRTUAL HOST SERVER**

West Chester Township began moving to a virtual environment in the spring of 2008. Virtual servers are an industry best practice that reduces overall hardware costs. The Township has four core virtual "host" servers that operate a total of thirty-eight "virtual" servers.

The Township originally budgeted for the replacement of three servers in 2013 (CIP #557). Better management of the Township's inventory, an improved CIP process, and the Township's move to virtualization has reduced the need from three servers to one.

We request to purchase one replacement virtual host server according to the Township's five year replacement plan.

Thank you for your consideration.
