Re: Gas Main Extension To Serve
Addition To Union Township Fire Station

Dear Chief Detherage:

Our Engineering and Planning Department has completed their preliminary main extension analysis for the above referenced site. The total distance required is 710 feet which would require a deposit of \$7,100.00 within ten (10) days after our crews begin construction.

For your information, I have enclosed a sketch showing the proposed preliminary routing.

If it is decided that this proposed extension will be desired, I'll need the following information to prepare the agreement.

1. To whom should the agreement be assigned.
2. Who will be authorized to sign the agreement and exactly as he/she signs their name.
3. Passage of a resolution authorizing the Township to enter into the agreement for the stated amount.
4. Address, city, state and zip code.
5. Telephone number.

We will need at least five (5) weeks lead time after the agreements are returned to us. Please forward the requested information as soon as possible.

If you have any questions, call me at 632-3793.

Sincerely,
